China Daily : ["Kuaishou Digital Human Live Streaming Assistive Base for the Disabled" Project Launched, AI Large Models Become New Path for "Digital Assistive"](#)

On October 31st, the unveiling ceremony of the Kuaishou Digital Human Live Streaming Assistance Base for the Disabled was held at the Hebei Xingtang County Disabled Persons' Innovation and Entrepreneurship Park. The project, initiated by the Hebei Provincial Disabled Persons' Federation, Kuaishou Public Welfare Team, and Kuaishou Digital Human Technology Team, is dedicated to exploring new models of employment assistance for people with disabilities in the digital era. The first phase of the project plans to establish "Kuaishou Digital Human Live Streaming Assistive Bases" in five administrative villages in Hebei Province to help people with disabilities to increase their monthly income.
