China Youth Net: [“Seedling Protection and Heart-Nurturing: Creating the Future Together,” Kuaishou Launches 2025 Minor Protection Series of Activities](#)

On May 28, as the first stop of the Haidian District Minor Network Protection “Photosynthesis Plan” implemented at Kuaishou Technology, a delegation led by Chen Lei, Deputy Party Secretary and Deputy Chief Prosecutor of the Haidian District People’s Procuratorate, along with representatives from Beijing Bayi High School and some members of the Beijing Municipal People’s Congress, visited the Kuaishou headquarters and conducted interactive legal courses. In anticipation of International Children’s Day on June 1, Kuaishou launched the “Seedling Protection and Heart-Nurturing: Creating the Future Together” minor protection special activities. By systematically displaying the minor protection product system and safeguard measures, and organizing a variety of themed activities, Kuaishou aims to guide the whole society to pay attention to the network security protection of minors and safeguard their healthy growth. This series of activities will run from May to July 2025. During this period, Kuaishou will release the “Kuaishou Minor Mode User Guide,” a Kuaishou minor protection work promotional video, and the “2025 Kuaishou Minor Protection Report,” to comprehensively interpret important measures and progress in minor protection.
