Haibao News: [Kuaishou Participates in the Youth Healthy Internet Use Public Welfare Action in Communities, and Will Enter More Schools and Communities for Popular Science in the Future](#)

Guided by the Publicity Department of the Central Committee of the Communist Youth League, organized by the Communist Youth League of Yunnan Province, and hosted by the Communist Youth League of Kunming Municipal Committee, the "Youth Healthy Internet Use Public Welfare Action in Communities" event, co-hosted by Kuaishou as a strategic partner, took place in the bustling Nanping Street Square in Kunming. The event featured an educational fair with eight themed zones for youth healthy internet use, including interactive experiences like the anti-fraud ring-tossing game, the data classification challenge, the password-cracking station, and the network emergency challenge. Looking ahead, Kuaishou will continue to leverage its platform strengths by inviting experts in AI, cybersecurity, education, psychology, and culture, as well as creators who spread positive energy online, to visit more schools and communities. The goal is to provide educational outreach on healthy internet use. Kuaishou hopes to collaborate with all sectors of society to safeguard a healthy cyberspace for young people.
