Phoenix Network: [Kuaishou Foundation Partners with Hong Kong Society for Rehabilitation and Crime Prevention to Explore Sustainable Post-Disaster Urban Support Models](#)

Recently, the Kuaishou Foundation partnered with the Hong Kong Society for Rehabilitation and Crime Prevention (HKSRCP). The two parties will collaborate around post-fire disaster support needs in Hong Kong's Tai Po District, focusing on three directions: "psychological services, social work development, and academic research," to carry out systematic and long-term cooperation, jointly exploring more resilient, sustainable, and replicable urban post-disaster support service models.
