People's Daily Online

The 2nd China Digital Carbon Neutrality Summit with the theme of “Digital Leading Green Development” commenced on February 25 in Chengdu, Sichuan Province. As an integral part of the summit, the “Green and Low-Carbon Digital Life” forum was organized by the Center for Environmental Education and Communications of Ministry of Ecology and Environment (生態環境部宣傳教育中心) and the All-China Environment Federation (中華環保聯合會) in the afternoon. The forum brought together professionals and experts from the environmental protection field, representatives from financial institutions and prominent internet technology companies, including Lin Ling (林翎), Director of the Environmental Resource Division of the China National Institute of Standardization (中國標準化研究院環資分院); Wang Xiaoying (王小穎), Director of Sustainable Development and Green Department of Ant Group; Shu Zhan (舒展), Director of the SSV Carbon Neutrality Laboratory at Tencent; and Xu Jingyun (徐靜芸), Vice President of Kuaishou Technology. They engaged in discussions and shared insights on how digitization can contribute to the promotion of green and low-carbon lifestyles among the public through multiple dimensions, with the goal of promoting digitalization and driving green development.
