

Digital communities Promotes technology inclusion and sharing: Kuaishou and other platforms were selected into the “Outstanding Cases of Improving Digital Literacy and Skills of the General Public in 2022”

2023.04.07

Guangming Daily (光明日報): [Digital communities Promotes technology inclusion and sharing: Kuaishou and other platforms were selected into the “Outstanding Cases of Improving Digital Literacy and Skills of the General Public in 2022”](#)

Recently, the Cyberspace Administration of China has announced the “Outstanding Cases of Improving Digital Literacy and Skills of the General Public in 2022” with an aim to promote the overall level of digital literacy and skills of the general public. Among the selected enterprises, Beijing Kuaishou Technology Co., Ltd. was recognized as an excellent practice in enhancing workers’ digital work capabilities and competitiveness, and empowering employment and entrepreneurship through digital technology and tools. And thus has been selected as an outstanding case in the category of enhancing digital literacy and skills in digital work for the general public.
