Zhu Di is one of the members of the Nanchang Hunting Team for Farmer Protection. Whether due to his fascination for “hunting” from a young age or a sense of responsibility, after becoming an official “hunter”, Zhu Di registered a Kuaishou account called “Zhu Di, Run Fast!”, where he began to document his hunting journey, sharing knowledge on helping farmers and providing solutions for farmers afflicted by wild animals. He and his teammates have become a task force contributing to the hard work of farmers throughout the year.
