

## **“Remote” rescue of individuals attempting suicide: Kuaishou collaborates with the police, saving 131 lives in half a year**

2023.09.11

CNR News : [“Remote” rescue of individuals attempting suicide: Kuaishou collaborates with the police, saving 131 lives in half a year](#)

September 10 marked the 21st “World Suicide Prevention Day”. It is reported that in August 2021, Kuaishou formally established a suicide intervention social assistance team. Through an AI early warning system and the formulation of standard comforting and intervention processes, the team provided seamless online assistance to those showing suicidal tendencies, successfully rescuing 131 individuals in the first half of this year. Currently, the “AI + Human” suicide intervention approach has become the standard for governance on mainstream internet platforms.
