China Labour and Social Security News : [Kuaishou's standardized recruitment live-streaming room established at the China Employment Training Technical Instruction Center of the Ministry of Human Resources and Social Security](#)

On September 4, Kuaishou's standardized recruitment live-streaming room was inaugurated at the China Employment Training Technical Instruction Center of the Ministry of Human Resources and Social Security. It is understood that live-streaming recruitment, as a novel internet model, represents one of the application scenarios that integrate the digital economy with recruitment and employment. It plays a significant role in promoting employment, particularly in bridging information gaps and alleviating challenges in recruitment.
